RCDHU Confirms Third Student at Madawaska Valley District High School Tests Positive For COVID-19

Today, Renfrew County and District Health Unit (RCDHU) in collaboration with the Renfrew County District School Board (RCDSB), is confirming that a third student at Madawaska Valley District High School in Barry's Bay, has a positive laboratory-confirmed case of novel coronavirus 2019 (COVID-19). All students and staff who have been deemed to be a close contact of the positive case, have been given direction to go home immediately to self-isolate and arrange for testing. The school remains open to in-person learning for all other students and staff. Please note that this still does not warrant outbreak status as exposure was deemed to be outside of the school setting via community transmission.

RCDHU is working closely with the RCDSB to ensure necessary measures continue to be in place to protect all staff, students and the public. RCDHU staff is actively investigating the case and **all high risk contacts will receive a standard text message on behalf of RCDHU from a Virtual Assistant and/or a phone call from a long distance number from the contact tracing staff at Public Health Ontario. Either message will come within 24 hours, notifying them that they have recently been exposed to COVID-19. All high risk contacts will be directed to complete the virtual assistant survey to complete contact tracing. If you are a high risk contact:**

- You MUST [self-isolate](#) and [self-monitor](#) for symptoms for 14 days. Do NOT return to work, school or child care, in-person;
- Call the Renfrew County Virtual Triage Assessment Centre (RC VTAC) at 1-844-727-6404 to book an appointment for testing;
- If test result is negative, continue 14-day isolation because of exposure and because COVID-19 could have been developing (incubating) at time of test;
- If test result is positive, continue to self-isolate and you will be contacted by RCDHU.

If you have been directed to self-isolate, you are required to:

- Stay home. Do not go to work, school, child care, or public places. You can go outside, but you must stay on your own property. Do not walk around the neighbourhood.
- Avoid contact with others. No visitors unless deemed essential (e.g. care providers), stay in a separate room away from other people within your household, use a separate bathroom if possible.

- If these steps are not possible, maintain a distance of 2 metres from others at all times.
- Keep your distance. If you are in a room with other people, keep a distance of at least 2 metres and wear a mask or face covering that covers your nose and mouth.
- Wash your hands often with soap and water or an alcohol-based hand sanitizer.

RCDHU is reminding residents to complete the [COVID-19 self-assessment tool](#) or [COVID-19 school and child care self-assessment tool](#) **daily** before going to work, school or daycare, to monitor for symptoms and proper guidance.
