Real Examples of COVID-19 Contact Tracing in RCD:

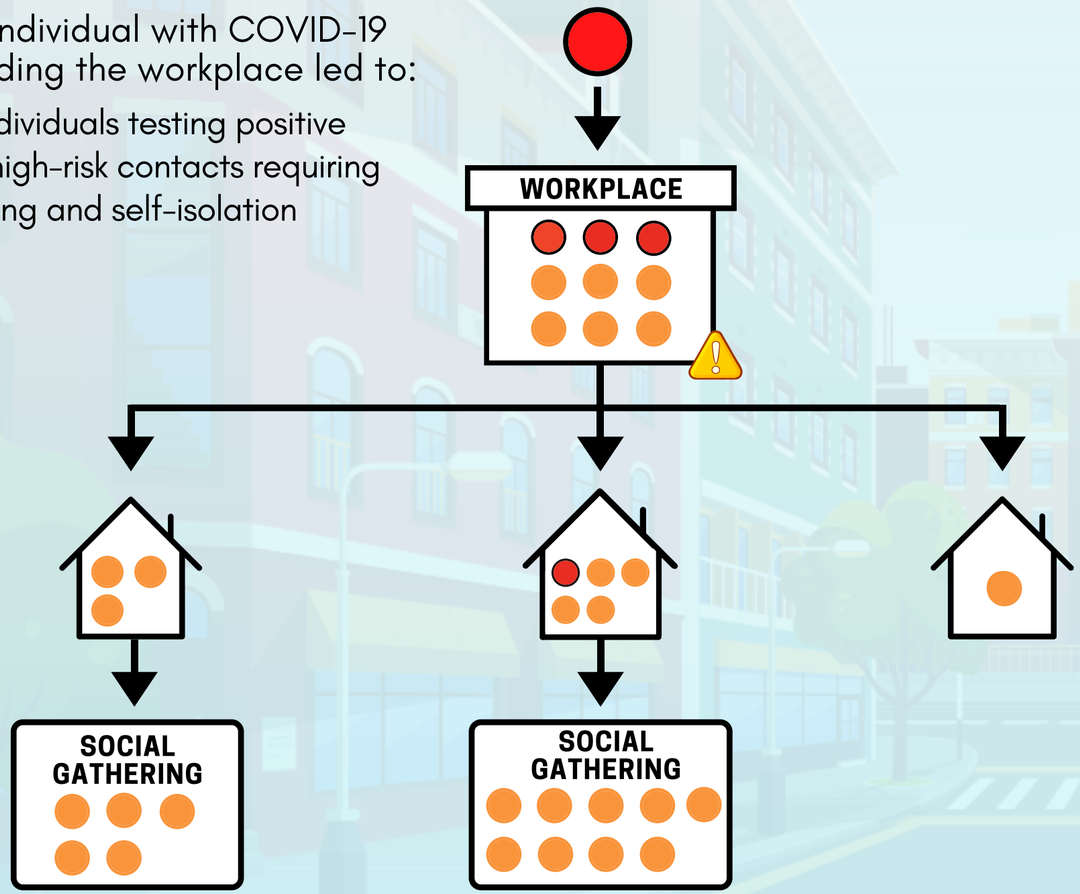
WORKPLACE SPREAD

Renfrew County and District Health Unit

EXAMPLE #1

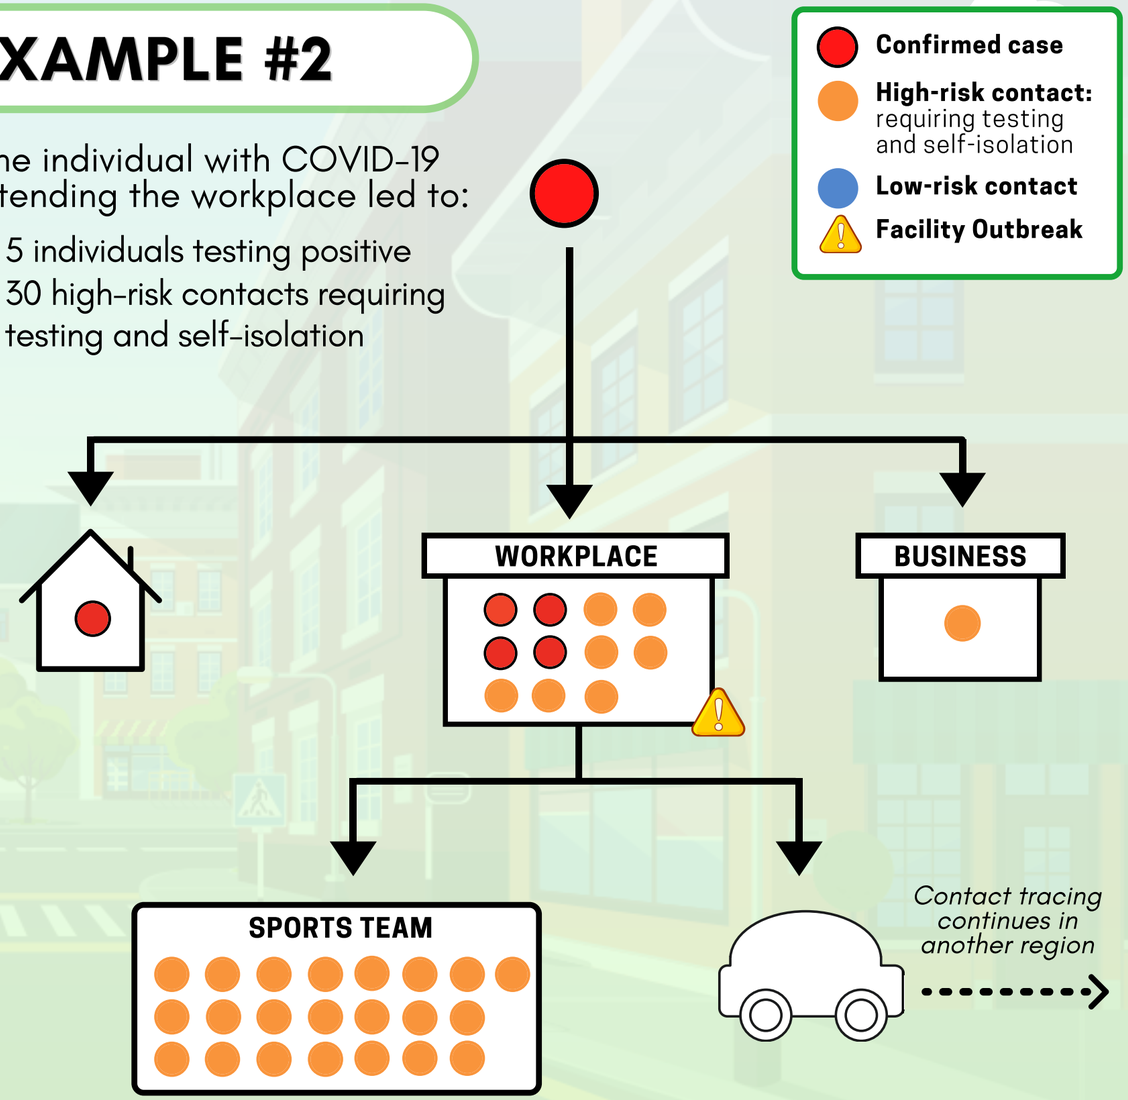
One individual with COVID-19 attending the workplace led to:

- 4 individuals testing positive
- 28 high-risk contacts requiring testing and self-isolation



***To avoid double counting, this graphic only shows individuals in the setting where they were initially exposed to the virus and not counted again in the setting where the virus was spread to their close contacts (e.g. household)**

EXAMPLE #2

One individual with COVID-19 attending the workplace led to:


- 5 individuals testing positive
- 30 high-risk contacts requiring testing and self-isolation
